TRIED & TESTED

RED GORILLA BIG TIDEE

FEATURES The large scoop size allows you to collect more muck, while the rake removes droppings without picking up bedding or arena surfaces **RRP £26.99** [VISIT redgorilla.red](http://redgorilla.red)

"The rake made poo-picking efficient without removing lots of bedding. The wide mouth of the scoop meant it was easy to fill and it sat close to the ground, making it perfect for sweeping up debris from the yard. I really like that the rake can be stored in a slot on the scoop when not being used."

A time-saving tool that's great for general yard work.
